COMPLIANCE STATEMENT

TITLE VI, CIVIL RIGHTS ACT OF 1964; THE MODIFIED COURT ORDER, CIVIL ACTION 5281, FEDERAL DISTRICT COURT, EASTERN DISTRICT OF TEXAS, TYLER DIVISION

Reviews of local education agencies pertaining to compliance with Title VI Civil Rights Act of 1964 and with specific requirements of the Modified Court Order, Civil Action No. 5281, Federal District Court, Eastern District of Texas, Tyler Division are conducted periodically by staff representatives of the Texas Education Agency. These reviews cover at least the following policies and practices:

(1) acceptance policies on student transfers from other school districts;

(2) operation of school bus routes or runs on a non-segregated basis;

(3) nondiscrimination in extracurricular activities and the use of school facilities;

(4) nondiscriminatory practices in the hiring, assigning, promoting, paying, demoting, reassigning, or dismissing of faculty and staff members who work with children;

(5) enrollment and assignment of students without discrimination on the basis of race, color, or national origin;

(6) nondiscriminatory practices relating to the use of a student's first language; and

(7) evidence of published procedures for hearing complaints and grievances.

In addition to conducting reviews, the Texas Education Agency staff representatives check complaints of discrimination made by a citizen or citizens residing in a school district where it is alleged discriminatory practices have occurred or are occurring.

Where a violation of Title VI of the Civil Rights Act is found, the findings are reported to the Office for Civil Rights, Department of Health, Education and Welfare.

If there is a direct violation of the Court Order in Civil Action No. 5281 that cannot be cleared through negotiation, the sanctions required by the Court Order are applied.

TITLE VII, CIVIL RIGHTS ACT OF 1964; EXECUTIVE ORDERS 11246 AND 11375; TITLE IX, 1973 EDUCATION AMENDMENTS; REHABILITATION ACT OF 1973 AS AMENDED; 1974 AMENDMENTS TO THE WAGE-HOUR LAW EXPANDING THE AGE DISCRIMINATION IN EMPLOYMENT ACT OF 1967; AND VIETNAM ERA VETERANS READJUSTMENT ASSISTANCE ACT OF 1972 AS AMENDED IN 1974.

It is the policy of the Texas Education Agency to comply fully with the nondiscrimination provisions of all federal and state laws and regulations by assuring that no person shall be excluded from consideration for recruitment, selection, appointment, training, promotion, retention, or any other personnel action, or be denied any benefits or participation in any programs or activities which it operates on the grounds of race, religion, color, national origin, sex, handicap, age, or veteran status (except where age, sex, or handicap constitute a bona fide occupational qualification necessary to proper and efficient administration). The Texas Education Agency makes positive efforts to employ and advance in employment all protected groups.

FOREWORD

The *Statistical Brief* report series is designed to provide timely statistical information on Texas public elementary and secondary education. Each report addresses a specific area and will be released as soon as possible after the data are officially added to the TEA Data Base. Education topics in this series include student enrollments and attendance, revenues and expenditures, professional personnel and salaries, and Foundation School Program information.

This report series is unique in two ways. First, the reports were designed to include information most frequently requested from the TEA Data Base. Those who need these data should find this series very useful. In addition, the *Statistical Brief* tables and text are computerized. This capability permits rapid update of the reports and will improve the accuracy of the report information.

The *Statistical Brief* reports are intended to meet the Texas public education information needs of education administrators, policymakers, researchers, and the general public. Although the basic nature of the information in the Statistical Briefs should meet the education data needs of the foreseeable future, the contents and format of the reports are flexible. Formats may be altered to meet the demand for new educational data as laws and State Board of Education rules are changed, new issues emerge, or the general need for information moves in a new direction. *Statistical Brief* users are encouraged to submit suggestions toward improving the reports.

SUPERINTENDENT'S ANNUAL REPORT OF TEXAS PUBLIC ELEMENTARY AND SECONDARY SCHOOL DISTRICTS 1981-82

I. INTRODUCTION

This report contains statistical information on attendance accounting data for Texas public elementary and secondary school districts for the 1981-82 school year.(1) Statistics used for this report were taken from the following Texas Education Agency report:

Superintendent's Annual Report, Parts I and II: 1981-82

Data were collected by district for this annual report for all students in Texas public elementary and secondary schools, during the 1981-82 school year.

Pupil attendance accounting data collected in the Superintendent's Annual Report (SAR), Part I, are used to determine the allocation of Foundation School Program funds to school districts. Authority for collection of these statistics is Section 21.252 of the Texas Education Code.

The data collected in SAR, Part II, are used for program management. Authority for collection of these statistics is Section 11.52(d) of the Texas Education Code.

This report presents summary and detailed statistical information for the 1,070 active school districts which had local taxing authority, and the 29 active districts which either had no local taxing authority or no property values.

---

(1) For the 1981-82 school year, 501 accredited private schools reported 116,386 students, while 226 non-accredited private schools reported 22,461 students. Since not all private schools reported, these counts do not represent the private school universe.

II. SUMMARY DISCUSSION

Pupil Accounting Totals for Texas, 1981-82

There were over 3 million original entries in Texas public schools in the 1981-82 school year. Of these students, 99.7 percent were enrolled in Foundation School Program (FSP) districts, while the remaining 0.3 percent were enrolled in special statutory or state-administered districts.

These enrollment figures included 91,206 pupils who were reported as children of migrant workers, and 340,727 handicapped pupils.

The refined average daily attendance (ADA) increased by 35,352, or 1.3 percent from the previous year. Of the 1,099 active districts, 636 districts reported a total increase of 54,242 ADA, 404 districts reported a total loss of 18,890 ADA, and 59 districts reported no change.

Table II-1 lists various attendance accounting statistics for Texas public schools by district Foundation School Program status. This table also shows the number of active public school districts in Texas for the 1981-82 school year.

Pre-kindergarten consists of special education students only. Kindergarten is only funded on a half-day basis by the state, except for educationally handicapped students, which are funded for the full day. Attendance rates showed only slight upward fluctuations from the first through the fifth grades, but then decreased steadily through the ninth grade. An increase in attendance rates was seen in the tenth through the twelfth grades.

Graduates of Public Schools

Graduates from public secondary schools in Texas reached over 172,000 students in 1981-82. As Table II-3 shows, this figure represented 91.4 percent of the students enrolled in the twelfth grade during the 1981-82 school year.

Table II-3 presents statistical information on graduates as a percent of twelfth grade original entries, and on graduates planning to attend college as a percent of total graduates. These figures include totals from all active public school districts in Texas, for the school years 1971-72 through 1981-82.

SOURCE: TEA, SUPERINTENDENT'S ANNUAL REPORTS, 1971-72 THRU 1981-82

The number of graduates as a percent of the total number of twelfth graders reached its highest point in 1974-75. The next school year showed a drop of about 3 percent, and the rate has fluctuated only slightly since then.

Distribution of Students in Texas

The distribution of students in Texas public school districts is highly skewed. As shown in Figure II-1, six percent of the school districts (the 65 districts with at least 10,000 original entries) reported 58.5 percent of the students, whereas the 667 districts with less than 1,000 original entries reported only 8.5 percent of the students.

Table III-1 shows that the 39 districts classified as major urban or other central city reported 36.3 percent of the students, the 152 suburban districts reported 36.7 percent of the students, the 208 non-metropolitan districts (with 1000+ ADA) reported 17.5 percent of the students, and the 671 rural districts reported 9.4 percent of the students.

EXAMPLE INTERPRETATION

The number of districts which reported at least 100 original entries but less than 500 original entries was 375. These 375 districts reported only 3.4 percent of the state total number of original entries.

Changes in Original Entries, 1972-73 to 1981-82

Over the ten-year period of 1972-73 to 1981-82, the number of original entries increased by 267,274 students or 9.5 percent. Figure II-2 represents the change in original entries from the prior year for each year, 1972-73 to 1981-82.

Final Analysis

Statewide historical trends show that the Superintendent's Annual Report original entries have increased annually with some fluctuations. In 1973-74, the number of original entries increased 2.7 percent over the prior year (primarily attributable to the addition of a half-time kindergarten for regular program students). In 1979-80 the increase over the prior year was only 0.1 percent, while the increase from 1980-81 to 1981-82 was 1.6 percent.

Increases or decreases in statewide enrollment can be attributed to three major factors: 1) net migration, 2) private school enrollments, 3) changes in the cohort sizes due to 5- and 6-year-old cohorts entering school while 17- and 18-year old cohorts are exiting school. Table II-4 presents the age cohorts for the years 1975-76 through 1981-82.

NOTE: Windham Schools (236-903) does not report original entries. Some state totals may not be exactly the same as Table III-5 due to the fact that these counts may not reflect the latest updates and adjustments.

There are little data available to analyze the effects of private school enrollments. Data on net migration is also rather scarce. Although Texas has experienced increased net in-migration, reliable estimates of the magnitude of this in-migration are not available for Texas public schools. Hence, much of the analyses of enrollments must be based upon historical trends.

Table II-4 shows state total original entries by age. Age data are often used to study trends as grade data are biased by retentions. Three small 6-year-old cohorts entered Texas public schools during the years 1972-73 through 1974-75. These three cohorts were ages 7, 8, and 9 (209,298 to 212,867 students per age) in 1975-76, and ages 13, 14, and 15 in 1981-82. These cohorts will exit Texas public schools over the next few years. Meanwhile, much larger 6-year-old cohorts have entered Texas public schools in the intervening years. The result of these cohort changes will be larger enrollments in Texas public schools during the coming years.

Table II-4 also shows each 6-year-old cohort compared to Texas births six years prior. It can be seen that in 1975-76 the number of 6-year-old original entries was approximately the same as the number of Texas births six years prior. In 1981-82 the number of 6-year-old original entries was approximately 18,000 or 8.4 percent more than the number of births six years prior. This increase can for the most part be attributed to net in-migration. The number of births six years prior to 1981-82 was approximately the same as the number of births six years prior to 1975-76 (215,177 births versus 216,275 births respectively). However, the next few years will have very large 6-year-old cohorts, since the number of births has increased significantly. The number of births corresponding to the 6-year-old cohorts entering Texas public schools are illustrated in Figure II-4. The births corresponding to the age 6 cohort for 1987-88 are 63,000 or 29.4 percent higher than the 1981-82 figure.

Enrollments during the 1980's will continue to increase due to net in-migration and the increase in births during the late 1970's and early 1980's.

IV. ADDENDA

Superintendent's Annual Report - Historical Background and Data Considerations

The Superintendent's Annual Report, Part I, and attendance accounting rules have undergone several major changes in recent years. 1970-71 was the first year of state-supported half-day kindergarten for "educationally handicapped" students, while 1973-74 was the first year of state-supported kindergarten for regular program students. In 1975-76, the definition of Refined ADA was changed to include all special education students. Also, data for special and vocational education full-time equivalent students were collected for school years 1975-76 and 1976-77 only. In 1977-78 educationally handicapped students became eligible for full-day kindergarten.

In past years, original entries were divided into two categories: students entering Texas public schools for the first time during the current school year who had not previously entered schools of another state, and those who, during the current school year, had been enrolled in a school outside of Texas. However, beginning with the 1979-80 SAR, that distinction was no longer made. Original entries are now defined only as students entering Texas public schools for the first time during the current school year.

The Superintendent's Annual Report, Part II, has undergone changes almost every year. For example, beginning in 1979-80, pupils enrolled in the special language programs were reported in one of two categories. A pupil was enrolled in either an intensive bilingual education program or a language development program teaching English as a second language. Previously, bilingual education programs in the first through fifth grades were intensive programs in dual language instruction, and in the sixth through twelfth grades were language development programs. Enrollment figures for these programs were contained in one report. Also, an additional category containing the count of pupils with limited English-speaking ability was included in the 1980-81 SAR. However, in 1981-82 the bilingual data were removed from the SAR and are now collected by the TEA Division of Bilingual Education.

Information on school leavers, pupils who have left school during the school year prior to graduation and are not known to have enrolled in another school, was discontinued after 1979-80.

The 1980-81 enrollments were affected by Justice Lewis Powell's court ruling that tuition-free education be provided to children of undocumented aliens. In response to a questionnaire on the issue, 366 districts reported that 11,000 undocumented aliens entered school on or before September 19, 1980.

Data for 1,099 active districts are presented in this report. However, Windham Schools does not report original entries. This accounts for apparent discrepancies in some state totals.

Annotated Definitions of Terms

ACTIVE SCHOOL DISTRICT: Any public school district which operates a school in the district each year. (See Section 19.246(b) of the Texas Education Code.)

ANALYZE REPORT CATEGORIES: Special district groupings of data used for TEA school finance policy analysis. These categories are defined as follows:

1. MAJOR URBAN DISTRICTS: The largest school districts located within the central city of each of the state's six largest Standard Metropolitan Statistical Areas (SMSA's), (i.e., Austin, Corpus Christi, Dallas-Fort Worth, El Paso, Houston, and San Antonio). SMSA's are defined by the U.S. Bureau of the Census.

2. OTHER CENTRAL CITY DISTRICTS: Districts which are considered by TEA to be the "most central" to the state's remaining SMSA's.

3. SUBURBAN-FAST GROWING DISTRICTS: Generally, suburban districts of 1,000 or more refined ADA which had at least 10 percent increase in the number of original entries from 1976 to 1981, and some smaller suburban districts which displayed rapid growth for the same period.

4. SUBURBAN-STABLE DISTRICTS: Suburban districts which are similar to those in the previous category but which do not demonstrate high ADA growth rates.

5. NON-METRO WITH 1000+ ADA DISTRICTS: Districts which have 1,000 or more refined ADA and which are not included in the previous categories.

6. NON-METRO WITH TOWN DISTRICTS: Districts which have less than 1,000 ADA and which encompass a town having a population of approximately 1,000 or more.

7. RURAL DISTRICTS: Districts which have less than 1,000 ADA and which have no central town within their boundaries.

AVERAGE DAILY ATTENDANCE (ADA): This general designation is used to refer to a group of attendance measures which include the following:

1. GROSS ADA: The aggregate days attendance divided by the number of days school is in session. Kindergarten pupils attending a half-day session earn a half-day's attendance for the school district.

2. REFINED ADA: The aggregate days attendance of eligible students divided by the number of days school is in session. Refined ADA is equal to gross ADA less ineligible ADA, and is used to determine the allocation of funds for state maintenance and operations, equalization aid, etc.

3. ADJUSTED REFINED ADA: The aggregate days of attendance divided by adjusted days of operations for the best five six-weeks reporting periods (four for migrant schools). Adjusted refined ADA is used only for personnel unit allocations.

4. INELIGIBLE ADA: Those students who do not meet the eligibility requirements set forth in the "Daily Register of Pupil Attendance." Generally, these are students who are non-residents or who are under or over the prescribed ages as of September 1.
   a. UNDERAGE:
      1.) Under 6 years old (Grade 1 and above) and not previously enrolled in an out-of-state school during the current school year.
      2.) Under 5 years old (kindergarten).
      3.) Under 3 years old (Special Education, Early Childhood Program).
      4.) From birth - Visually and Auditorially handicapped
   b. OVERAGE:
      1.) 21 years old (Regular Program).
      2.) 22 years old (Special Education).

AVERAGE DAILY MEMBERSHIP: The aggregate days of membership divided by the number of days school is in session.

COHORT: Group of students of the same school age, i.e., those students born after September 1 of a given year and on or before August 31 of the following year.

COUNTY-DISTRICT NUMBER: A six-digit TEA code which uniquely identifies each Texas school district. The first three digits identify the county in which the district administrative offices are located. (The 254 Texas counties are numbered alphabetically.) The last three digits identify the type of district as follows:

000 thru 099 - Common School District
701 thru 799 - Rural High School District
901 thru 949 - Independent School District
950 - Regional Education Service Centers

EDUCATION SERVICE CENTER (ESC): A special intermediate level agency established to provide planning, coordination, and other special services to public school districts within a defined geographic region of Texas. (See Sections 11.32 and 11.33 of the Texas Education Code.)

ELEMENTARY SCHOOL: A school classified as elementary by local practice which provides instruction for students who are enrolled in any grade not above grade 8. This includes kindergartens and pre-kindergartens if they are under the control of the local board of education.

FOUNDATION SCHOOL PROGRAM (FSP): A program of state government financial assistance created "to guarantee that each school district in the state has adequate resources to provide each eligible student a basic instructional program suitable to his educational needs." Under the FSP, eligible districts receive state monies for minimum salaries of personnel, current operating expenses, categorical program aid, and transportation services. The amount of state aid is based on the district's ability to support its public schools. (See Sections 16.002 and 16.004 of the Texas Education Code.)

INDEX (PROPERTY) VALUE: The full market value of property in a school district, less the difference between the full market value and the productivity value of land that qualifies for appraisal on the basis of its productivity. See MARKET (PROPERTY) VALUE.

MARKET (PROPERTY) VALUE: The commonly accepted definition of market value is the price, in terms of money, which a property will bring if placed on the market for a reasonable time, with both the buyer and seller being aware of all its uses, and neither the buyer nor the seller under any stress or duress to buy or sell.

For Texas school districts, taxable market value is the market value of tangible property, less exemptions lawfully granted by the district, determined by the State Property Tax Board in a biennial study in accordance with Subchapter F of Chapter 11 of the Texas Education Code. Taxable market value is the basis for the full market value and index value used by the Texas Education Agency for calculation of a district's local fund assignment.

ORIGINAL ENTRIES: The number of pupils entering Texas schools for the first time during the current school year.

PUBLIC SCHOOL CAMPUS: An administrative unit of a public school district which serves students enrolled in a limited number of grades and which usually has its own grounds, buildings, and other facilities.

PUBLIC SCHOOL DISTRICT: A governmental jurisdiction created under state law for the general purpose of providing an education to all eligible students who enroll in its schools or educational programs. (See Chapter 19 of the Texas Education Code.)

"REGULAR FOUNDATION SCHOOL PROGRAM (FSP)" PUBLIC SCHOOL DISTRICT: A district created under general statutory authority which is eligible for state funding assistance under the Foundation School Program. These districts have geographic boundaries with corresponding property values, as well as taxing authority. They are administered by a locally elected school board.

SECONDARY SCHOOL: A school which provides instruction for students enrolled in any grade beginning with the next grade following the elementary school and ending with or below grade 12. This includes junior high schools, high schools, and vocational or trade high schools.

SPECIAL POPULATION EDUCATION: Programs designed to meet the special educational needs of limited pupil populations (e.g., the handicapped, limited English-speaking, educationally disadvantaged, etc.).

"SPECIAL STATUTORY" PUBLIC SCHOOL DISTRICT: A district created by special legislative act but not administered by a state government agency. Examples of this type of district are the public schools associated with military bases near San Antonio and the Masonic Home schools in Fort Worth.

"STATE-ADMINISTERED" PUBLIC SCHOOL DISTRICT: A district created by legislative act which is both funded and administered by a state government agency. Most of these schools are administered by the Texas Department of Mental Health and Mental Retardation or the Texas Youth Council. In addition, the Department of Corrections operates Windham Schools and the University of Texas System operates Moody ISD, the district associated with the UT Medical Branch Hospital in Galveston. The State Schools for the Deaf and Blind have been under the Texas State Board of Education, but were placed under the control of independent boards of trustees beginning with the 1981-82 school year.

Technical Notes

COUNTY ESTIMATES: County totals in this statistical report are termed "estimated" because school district and county boundaries frequently do not coincide. True county totals exist only for those counties where all district boundaries coincide with county boundaries.

ROUNDING: All percentage calculations have been rounded to a single decimal place. Consequently, table percentages may not sum to exactly 100.0 percent.

Statistical Brief Special Tabulations

The TEA Division of Information Analysis may be able to provide data users with special tabulations or computer tapes based on the same data used in Section III of this report. Inquiries about special tabulations or computer tape files should be addressed to:

INSTRUCTIONS FOR COMPLETING TABLES I AND II, SUPERINTENDENT'S ANNUAL REPORT — PART I

TABLE I

1. Complete lines A1 through E by utilizing, by grade, the sum of all comparable lines on each of the Principal's Term Reports of the school district. These data must equal the sum of all data recorded in the Daily Register of Pupil Attendance or other such equivalent record. Also, the table must be mathematically correct, and care must be taken to follow the equations shown on applicable lines. For example, line A4, total enrollment, must be equal to line A2, total original entries for all ages, plus line A3, reentries. Definitions for ineligible enrollment, handicapped enrollment, and migrant enrollment appear in the instructions in the Daily Register of Pupil Attendance, and are to be used consistently on all pupil attendance accounting records, including the Principal's Period Report, the Principal's Term Report, and the Superintendent's Annual Report, Part I.

2. Complete only the total column for line F, by dividing line E, eligible migrant children, by line C, eligible enrollment. If line F calculates to 10% or more of eligible enrollment, the school district qualifies as a migrant school for Foundation School Program funding purposes, and the two lowest six weeks reporting periods are to be deducted from refined ADA.

TABLE II

1. Complete lines G1 through G4 by utilizing the Principal's Term Reports for the school district in the same manner as described above for lines in instruction #1 for Table I. If the number of days of operations vary between six weeks reporting periods for grades within the district (i.e. grade 4 on campus A had 30 days for the first six weeks period, and grade 4 on campus B had 29 days for the first six weeks period), a separate Table II for line G1 through G4 must be prepared for each variance, and a district wide combined Table II reflecting data on lines G1 through G4 will be used to determine the lowest six week reporting period(s) for the school district.

2. The lowest refined average daily attendance figure appearing on line G4 constitutes the lowest six weeks reporting period for the school district, and the appropriate block in line H is to be checked accordingly. Complete lines H1 and H2 by utilizing corresponding data recorded on the Principal's Period Reports for the period checked on line H for the school district. If there is a variance in a grade in the number of days of operations (line H1), separate Tables II, III, and IV must be submitted for each variance.

3. The second lowest refined average daily attendance figure appearing on line G4 constitutes the second lowest six weeks reporting period for the school district. The appropriate block on line I is to be checked ONLY IF THE TOTAL COLUMN ON LINE F, TABLE I, IS 10% OR MORE, and line I1 and I2 are to be completed ONLY IF A BLOCK IS CHECKED on line I. If the total column on life F is less than 10%, lines I, I1, and I2 are to be left blank.

4. Complete lines J1 through J3 by utilizing the Principal's Term Reports for the school district in the same manner as described for lines in instruction #1 for Table I. If there is a variance in a grade in the number of days of operations on any of the lines J1 through J3, separate Tables II, III, and IV must be submitted for each variance.

INSTRUCTIONS FOR COMPLETING THE ABOVE TABLES III AND IV AND GENERAL INSTRUCTIONS

Note: Tables I and II appear on the separate enclosed schedule, and they must be completed first. Instructions for completion of these tables appear on the back of this form for Tables III and IV.

TABLE III

1. Complete lines K through O by utilizing, by grade, the sum of all comparable lines on each of the Principal's Term Reports for the school district. These data must equal the sum of all data recorded in the Daily Register of Pupil Attendance or other such equivalent record. Also, the table must be mathematically correct, and care must be taken to follow the equations shown on applicable lines. For example, line M, aggregate days attendance for the year, must be equal to line K, aggregate days membership for the year, minus line L, aggregate days absent for the year.

2. Complete lines P1 and P2 by posting appropriately the figures recorded in Table II on lines H2 and I2. Line P2 is to be completed ONLY IF LINE F, TABLE I IS 10% OR MORE. If line F on Table I is less than 10%, line P2 is to be left blank. Complete line P3, total low periods aggregate days attendance, by adding lines P1 and P2. If line P2 is left blank, line P3 must nevertheless be completed, and it must be the same as line P1.

3. Complete line Q, adjusted refined aggregate days attendance, by subtracting line P3, total low periods aggregate days attendance, from line O, refined aggregate days attendance for the year.

TABLE IV

1. Complete lines R through U by following the equations shown on each line. In other words, the appropriate lines K, M, and O in Table III, are to be divided by line J1, Table II, number of days of operations for the year, and line Q in Table III is to be divided by line J3, Table II, adjusted number of days of operations. Accuracy of Table IV is very important, as much of the financial support allocated to the school district by the State is based upon these figures.

2. Complete only the total column for line V, percent of attendance, by dividing line M, Table III, aggregate days attendance for the year, by line K, Table III, aggregate days membership for the year.

GENERAL INSTRUCTIONS FOR ALL TABLES OF PART I OF THE SUPERINTENDENT'S ANNUAL REPORT

1. Check all tables for accuracy and completeness. Make sure that the front cover has been signed by the superintendent.

2. Submit the entire report to the Texas Education Agency per the instructions on the front cover.

3. Retain a copy of this report and all supporting documents (i.e. absence reports from teachers, the Daily Register of Pupil Attendance or its equivalent, the Principal's Period Report, and the Principal's Term Report) for at least five years.
